Full Kickstand

SCOOTER ELECTRIC

Be Just a Kid Again -

Remember the fun you had the first time you cruised down that really steep hill on your two-wheeler? It was almost like flying. Well, your Cap'n Billy's Whiz Bang gives you that power-of-gravity rush anywhere!

Doin' What You Did Again -

Riding to school or work, hanging out with friends or just scootin' around town, Cap'n Billy's Whiz Bang will take you back, while it takes you where you want to go.

Only Better -

Simply push off, press the thumb action speed control and feel your Cap'n Billy's Whiz Bang accelerate to speeds of 13-15 mph. The powerful and quiet 24 volt motor is coupled to a sturdy frame and super-sized deck, giving you the power to climb hills, the comfort to find your own riding style and the handling to whiz from here to there and back again.

***With Cap'n Billy's Whiz Bang
the Future is Electric!***
